

## **Green TEA announce a new Car Share Club in Eynsham.**

### **Could this work for you?**

In the longer-term sharing cars will reduce congestion, free up parking and take more cars off the roads. Sharing cars reduces transport costs.

How much do you use your car – or your second car?

### **Here's How It Works**

**Hiyacar** manages the EynCar Closed loop and deals with insurance, booking, invoicing and payments. Once you are set up it is as easy as making a contactless payment in a shop. We have chosen the Closed Loop model as we think this will work well in Eynsham where people may know one another and this can build trust.
